PROFESSIONAL EXPERIENCE

TadreeX - Game Programmer

Sousse, Tunisia

Dec 2024 - Present

Develop immersive VR training simulators, collaborating on innovative solutions that enhance skill-building through realistic simulations. My work focuses on leveraging virtual reality to reduce training costs and improve operational efficiency, delivering impactful and accessible learning experiences.

Project Technologies: Unity, C#, VR, Blender

Lanterns Studio - Game Programmer Intern

Tunis, Tunisia

Jun 2023 - Jun 2024

Acquired comprehensive skills in Unreal Engine 5, designed and implemented a behavioral cloning system, developed multiple game demos including a Worms Armageddon remake, and created a Souls-like game, showcasing expertise in advanced game design, animations, and combat mechanics.

Project Technologies: Unreal Engine 4, 5, Blueprints, C++

WezzBox Sudio - Game Programmer Intern

Sousse, Tunisia

Jul 2022 - Sept 2022

Designed and developed mini-games, implemented gameplay mechanics and interactive features, and leveraged C# programming to develop and optimize game systems while also exploring AR and VR development.

Project Technologies: Unity 2D ,3D, C#, Mobile, AR

Freelance Software Developer

Algeria & Tunisia

2020 - Present

Developed and deployed tailored ERP softwares to regulate logistics, stock, orders, and production processes for cardboard factories, including Sifco, Jelmbal, and Ibara. Customized and sold the software to each company, with specific adjustments to meet their operational needs. Provided on-site installation and training, and continue to offer ongoing technical support, including bug fixes and feature updates.

Project Technologies: .Net , WPF, C#,VB, SQL
